Others:

3 Massage Modes

Mode 1: Relieve Fatigue

Suitable for people who stand or walk for long periods and have muscle soreness in the legs.

Mode 2: Sports Recovery

Intended to deeply relieve post-exercise soreness.

Mode 3: Deep Care

Suitable for daily in-depth care for people who sit in the office for long periods and lack exercise, leading to soft-tissue stiffness.

Wireless Use and Removable Battery Charging

You can enjoy using the leg-compression massage boots with family or friends anytime and anywhere to relax leg muscles and relieve fatigue; the removable-battery charging design frees you from cable constraints, and the sweat-proof liner is easier to clean, making relaxation massage simple.

App Connection personalised massage

Connect to the application to enjoy synchronised massage

Hook design saves space

User Guide

01

Put your legs into the compression boots and zip them up.

02

To power on the device, set the switch to the ON position.

03

Briefly press the mode button to enter fatigue-relief mode and start at level 1.

04

While operating, briefly press the speed button to switch between levels 1-5.

05

Quickly press the mode button twice within 1 s to change mode (blue: fatigue relief / green: sports recovery / yellow: deep care).

06

Press and hold the standby key for 1.5 s; the speed returns to 0 and it enters standby mode.

07

In any case, set the switch to the OFF position, disconnect the power and release the pressure.
